Applications for 2024-2025 are now open

Seven excellence scholarships (7,800 EUR) are available.

[Application form](#)

The Master's in Economic Analysis (Master 2) is a joint program between CY Cergy Paris University and ESSEC Business School. It delivers top-tier training in economics through a one-year program, exclusively conducted in English. Designed as a stepping stone for further academic pursuits in a Ph.D. program in Economics or to join National and International Organizations, the curriculum emphasizes both economic theory and empirical methods.

Graduates of the program are eligible to seek admission to the second year of the ESSEC Ph.D. program in Economics and the doctoral program at CY Cergy Paris Université. Successful Ph.D. candidates become part of ThEMA, receiving a yearly gross salary of approximately 40,000 EUR (plus extra remuneration for teaching responsibilities). About 60% of our Graduates continue with a PhD in Economics. The remainder finds interesting positions with very attractive wages in the private sector and National and International Organizations.

Students enrolled in the M2 EA program have access to sports facilities, numerous cultural activities, IT rooms, libraries, university restaurants, and both CY Cergy Paris Université and ESSEC campuses. Additionally, they receive a warm welcome at the "CY on board" event. Foreign students also benefit from our excellent International Welcome Desk. CY Cergy Paris Université has been awarded the "Bienvenue en France" quality label.

The research training adheres to internationally recognized standards of scientific excellence in Economics, led by professors from CY and ESSEC. Explore our laboratory: [ThEMA](#).

Application form

Candidates with various backgrounds are encouraged to apply. This includes Master 1 in e.g. Economics, Maths or related fields (from CY & CYTech or another university or school), Master 1 from Institut d'Etudes Politiques Sciences Po (e.g. IEP St-Germain-en-Laye), engineering or business schools degrees. A degree in economics is not mandatory, but the candidate should definitely have some background in mathematics and econometrics (or data analysis), since the courses rely heavily on mathematical modelling of economics and applied econometrics.

Admission decisions are based on thorough analysis of application materials, with a prerequisite of good English proficiency (certified by TOEFL, TOEIC, or IELTS at a minimum CEF level of B2). Exceptions apply to those with international training in English-certified courses, though a letter from the administrative office of their universities mentioning that the language of instructions of their courses was English is required. Candidates who have studied in an English-speaking country do not need any document of the sort.

Foreign students should hold a degree equivalent to the French M1, with an emphasis on mathematics background, though an economics degree is not mandatory. For those outside the European Union, it is necessary to follow additional instructions [available here](#). For candidates residing outside the EU, please ensure to submit your comprehensive application package to us concurrently with your application through platforms like Campus France!

If you reside in one of the 65 countries affiliated with Campus France and the Etudes en France procedure, you must apply starting from October 1, 2023, via this [link](#).

Foreign candidates outside the EU residing in a country outside Campus France must download the individual mobility student application package starting from December 15, 2023. [Individual mobility information](#)

Candidature

Modalités de candidature

Applications for 2024-2025 are now open.

Deadline for application: **June 16th, 2024.**

Be aware that the deadline for M2EA scholarships' application is **April 22nd, 2024. However, we start reviewing applications as soon as we receive them.** For those outside the European Union, it is necessary to follow additional instructions on [Inscription des étudiants étrangers](#) and to submit the application M2EA package **concurrently with their application through platforms like Campus France.**

Application will be open **till June 16th, 2024**. Admissions results will be released by email. Prior to the release of the results by email, we will be unable to respond to any question regarding the admissions committee's decision.

The International students who must apply via Campus France should keep in mind that Campus France's deadline is very early.

Conditions d'admission / Modalités de sélection

The admissions panel carefully reviews all applications. In exceptional cases where crucial information is missing, the panel reserves the right to postpone the decision on an applicant's admission.

Furthermore, if an applicant's academic record falls short of the criteria for direct admission to M2, the panel may recommend admission to M1 instead.

It is important to note that all admissions are contingent on the applicant obtaining the necessary degree for access to the Master 2 level (an Master 1 or equivalent). Proof of obtaining the necessary diploma will be requested during the administrative registration process in both July and September.
